

Fostering Campus-Wide Excellence in Information Trust and Security

Institute Vision:
Trust in Society

Institute Personnel:
92 faculty and senior researchers from 17 departments and units

Institute Highlights:

- established, rapidly growing effort
- large, diverse, campus-wide community of researchers
- societal and industrial problems drive research
- addressing broad application areas
- international recognition
- major corporate partnerships
- led by the College of Engineering

Centers in ITI:

- Boeing Trusted Software Center
- CAESAR: the Center for Autonomous Engineering Systems and Robotics
- Center for Information Forensics
- NCASSR: the National Center for Advanced Secure Systems Research
- NSA Center for Information Assurance Education
- TCIP: Trustworthy Cyber Infrastructure for Power Center
- Trusted ILLIAC

Institute Research Themes:

- Critical Applications, Infrastructures, & Homeland Defense
- Embedded & Enterprise Computing
- Multimedia and Distributed Systems

- Critical Infrastructures & Homeland Defense
- Embedded & Enterprise Computing
- Multimedia and Distributed Systems

- the Boeing Trusted Software Center
- CAESAR: the Center for Autonomous Engineering Systems and Robotics
